## **MEWP (Mobile Elevating Work Platform)**

### **“New” Suite of CSA Standards B354.7/B354.8**

## **For Operator Training, Inspection, Maintenance and Operation**

### **What you need to know**

**Duration:** 2 Days

**Topics:**

- Training program is based on the updated CSA Standards B354.7/B354.8
- Aerial Platforms are now broken down into Types 1,2 or 3 and two Groups A and B
- Training Certificates must be renewed no later than 5 years
- Workers to be trained on the MEWP(s) they will be operating at the workplace or on the jobsite
- More intense and detailed practical evaluations
- First day of training will be theory
- Second day of course is scheduled for the practical evaluation
- Training applies to “new” operators as well as those operators who are trained but require renewal of their certificate.
- “New” operators will require a period of familiarization at their workplace with the MEWP they will be operating before completing a scheduled practical evaluation.
